

Green Street Green Association AGM 2021
Report of the Chairman of the Village Society Committee

It is with some sadness I cannot be with you tonight, alas a chronic illness and the passage of time have made this inadvisable.

In looking back on my brief tenure it was a period almost unparalleled in modern times. The goodwill spirit of small businesses donations made the floral display of hanging baskets have once again brought brought both colour and greenery to our village.

We in the Village Society committee continued to watch for variances that would impact on the social well being of our community, for parking, building regulation and sundry nuisances common in modern day society.

I am sure we will all have pride in the efforts of the Association in making the Greenwood Centre a centre of excellence in the provision of new disabled toilet facilities and the upgraded kitchen.

Though the Association and Society face a challenging time in the immediate I am confident they will meet this challenge once more.

In closing I would make a special thank you to Margot for all the assistance and effort she gave to me and her unstinting service to the Society, and also to our Ward Councillors ever vigilant on our behalf

William Sear
